

*Cl
Cmt*

- b) subjecting said reaction mixture to an elevated temperature sufficient to generate the isocyanate corresponding to said organic formamide compound; and
- c) isolating said isocyanate from said reaction mixture; wherein said organic formamide compound is one of the formula

where n is an integer from 1 to 10 and R is an organic radical.

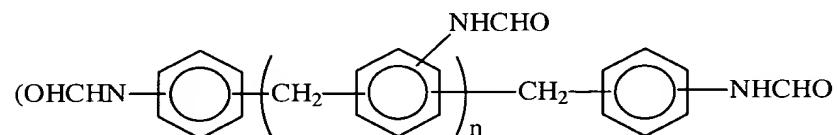

Kindly add the following new claims.

53. (New) The process of claim 26, wherein said organic formamide

Cn compounds is one of the formula

wherein n is from 1-5 and R comprise C₆₋₃₀ aryl, or a formamide of the structure

wherein n is from 0 to 3.
